

Manuscripts must be sent to one of the Editors-in-Chief. The electronic submission by PostScript or PDF files of manuscripts is highly encouraged. In case of submitting hard copy, please send three copies of the manuscript. Submission of a manuscript to the journal is a representation that the paper has not been published or submitted for publication elsewhere.

Manuscripts must be in English and be accompanied with an abstract not exceeding 200 words, lists of key words and AMS subject classifications, an abbreviated title consisting no more than 50 characters, and complete addresses of all authors. The subject classifications can be searched at <http://www.ams.org/msc/>.

The list of references should be in alphabetical order. Titles of journals should be abbreviated in accordance with Mathematical Reviews. Abbreviations are available at <http://www.ams.org/msnhtml/serials.pdf>. Some examples of reference styles are as follows:

- [1] M. Kojima, S. Mizuno and A. Yoshise, A polynomial-time algorithm for a class of linear complementarity problems, *Math. Program.* 44 (1989) 1-26.
- [2] O.L. Mangasarian, Regularized linear programs with equilibrium constraints, in *Reformulation: Nonsmooth, Piecewise Smooth, Semismooth and Smoothing Methods*, M. Fukushima and L. Qi (eds.), Kluwer Academic Publishers, Dordrecht, 1999, pp. 259-268.
- [3] R.T. Rockafellar and R.J-B. Wets, *Variational Analysis*, Springer-Verlag, Berlin Heidelberg, 1998.

Authors will be requested to provide a LaTeX file of the paper if it is accepted. Figures and Tables must have self-explanatory captions and be numbered consecutively. Authors of accepted papers will be requested to send the publisher either electronic figure files or hard copy artwork of professional quality.

Your article will appear in Web of PJO by choosing "Open Access (by Flash)" .

If the author(s) doesn't remove electronic preprints (reprints) from publicly accessible servers, the author(s) has to choose "Open Access (S-2)" of Pagecharge form.
